## Disabilities Liberation Officer

Hey I'm James, if you'll lend me your time I would like to explain why I wish to continue to be your disability officer, first a little info about myself, I have Aspergers/Autism, I have been a part of the SU for a year now and I wish to continue the work I have started I am also very considerate and never think an opinion doesn't matter.

Now onto what I want to continue doing as your disability officer, I will continue setting up a disability forum for people who wish to speak to someone but don't know where to go, I will continue to organise more, quieter su events for those that want to go to the current events but find them either too busy or noisy, I will continue working towards better signage to buildings and accessible areas i.e. lifts and ramps, And having the accommodation site made easier to understand and use.

If you agree with me and want me to continue to be your disability officer then vote James Allanson No.1
